C200

For the ultimate in compact, powerful mulchers, look no further than Rayco's C200. The C200 is powered by a 200hp Isuzu diesel and tips the scales at only 8,391 kgs. Its narrow profile makes the C200 the ultimate for ROW clearing on narrow lines as well as for use in larger scale clearing projects. The C200 rides on a hi-track, steel undercarriage available with 2-speed travel and is available with 20" single-grouser tracks for extreme traction or triple-grouser street pads for applications that require minimal soil disturbance. The hi-track undercarriage promotes longer track life, reduces debris packing in the track chain, and cleans easily to save maintenance time. Because it's purpose-built, the C200 is loaded with features operators appreciate. Loader-style lift arms provide a mulcher lift height of 8-ft, making it easier for mulching taller vegetation.

Specifications C200

Weight	8,391kg
Length	497.3cm
Height	261.6cm
Width	219.1cm
Engine	200hp Isuzu Diesel
Track Shoe	500mm Single Grouser
Mulcher Head	Predator FM200-6DR
Cutting Width	180cm
Rotor Diameter	42.55cm
Rotor Speed	2,052rpm
Mowing Height	232.2cm
Teeth	36

Features

- Reliable Isuzu diesel engine with 200hp
- Reversing fan
- EASY CLEAN - Hi-track steel undercarriage with 2-speed travel
- Rayco's exclusive track tension monitoring system
- Hydraulic rear winch
- Hydraulic cab tilt
- Comfortable and quiet cabin with side entry door
- High-backed, heated seat with air-ride suspension
- Rearview camera
- High-output LED work lights
- Predator mulcher head with dual drive motors and 6ft cutting width
- Mower lift height of 8-feet
