# RC1220G PETROL

When you want a lightweight, 12-inch (30.5cm) wood chipper at an economical price, you don't have to sacrifice performance. The RC1220G is the solution. The RC1220G features a powerful feed system, using a planetary drive motor to power the feed wheel for years of dependable service with very little maintenance. To reduce trimming, the throat opening is 20" (50.8cm) wide all the way through to the drum, eliminating neck-downs behind the feed wheel. The feed wheel itself is 20" (50.8cm) in diameter, allowing it to climb over limbs and logs easier than competitors' smaller feed wheels. Rayco's X-Charge discharge system packs chips tight and helps to prevent plugging. To reduce maintenance costs, traditional clutches are eliminated. The drum engagement comes via a reliable belt-tensioning PTO. Drive belts can be accessed easily, without tools to save maintenance time. The lighter weight of the RC1220G also makes it well suited for towing, reducing loads and using less fuel in the tow vehicle. The RC1220G offers performance and labour saving features in a package that can fit almost any budget.

## Specifications RC1220G Petrol

Weight	2,222.6kg
Length	429cm (Feed Table Up)
Height	258.3cm
Width	190.5cm
Engine	89hp 66.4kW GM
Fuel Tank	113.6L
Chipping Capacity	30.5cm
In-feed opening	30.5cm x 50.8cm
Intake Rate	33.5m/min
Discharge Height	258.318cm
Rotation	360°
Feed Wheel Diameter	20" (50.8cm)

## Features

- Powerful 89 hp GM Petrol Engine
- Planetary Feed Wheel Drive Motor
- 20" (50.8cm) Diameter Feed Wheel
- 6,000 lb (2,721.5kg) Leaf Spring Axle
- X-Charge Discharge System
- Easily Removable Belt Guard Door
- Versa-Feed Automatic Feed Control
