RC1824

The RC1824 chipper was designed with a powerful feed system to minimise trimming and make feeding difficult material easier for the operator. The top feed wheel is 24-inches (61cm) in diameter to easily climb over limbs and logs and powered by a planetary drive motor that's nearly maintenance free. The chipper throat is 24-inches (61cm) with no neck down behind the feed wheel. Power is supplied by a Cummins 160hp diesel engine and Rayco's Versa-Feed automatic feed control ensures optimum performance. The 4-knife drum measures 38-inch (96.5cm) diameter x 24-inch (61cm) wide to chip smoothly and allow more width than the competition for chipping crooked material and/or multiple pieces. The RC1824 is available with a host of options to suit your specific needs.

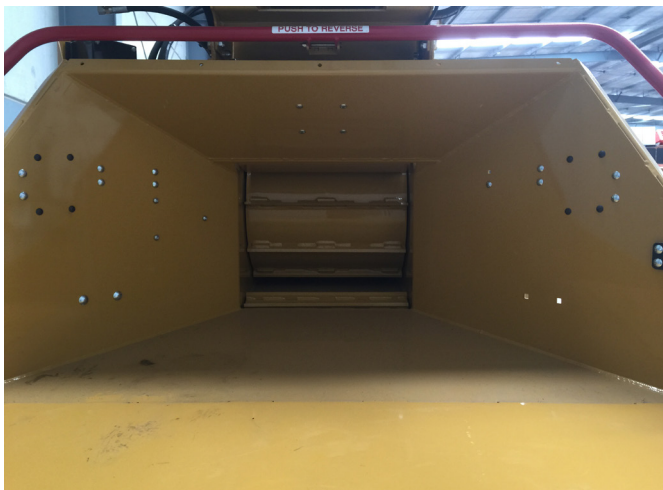

Specifications RC1824

Weight	4,218.4kg
Length	487.68cm
Height	294.64cm
Width	235.59cm
Engine	160hp Cummins
Fuel Tank	124.92L
Chipping Capacity	45.72cm
In-feed opening	48.26cm x 60.96cm
Intake Rate	32m/min
Discharge Height	294.64cm
Rotation	360°
Feed Wheel Diameter	24" (60.96cm)

Features

Powerful 160 hp Cummins Engine
Large Feed Table
Planetary Drive Motor
Versa-Feed
360° Hydraulic Chute (option)
Optional Hydraulic Winch

Available with a 360° hydraulic chute and hydraulic winch.

Large Feed Table with 18-inch (45.7cm) x 24-inch (61cm) Infeed Opening
