RG45-R Trac

The RG45-R Trac Diesel offers the ultimate in versatility and performance in a mid-sized stump cutter. Excellent cutting power, radio remote controls, a hydraulic backfill blade, and expandable rubber tracks mean the RG45-R Trac can get to almost any stump and remove it quickly. The extendable, rubber track undercarriage provides a stable, 50-inch (127cm) wide, stance for cutting, while retracting to 35-inches (88.9cm) to squeeze through backyard gates. The long track base ensures stability and lowers ground pressure to tread lightly on delicate lawns. Non-marking tracks are available. The reliable, Kubota 44hp diesel engine provides plenty of muscle to tackle large stumps. When it's time to clean up, the hydraulic backfill blade easily pushes chips and soil to avoid raking.

Specifications RG45-R Trac

| | |
|----------------|---------------------------------------|
| Weight | 1,474kg |
| Length | 366cm |
| Max. height | 185.4cm (shield) / 155cm (air filter) |
| Width | 127cm (expanded) / 89cm (retracted) |
| Engine | 44hp Kubota Turbo |
| Fuel Type | Diesel |
| Ground Drive | Rubber Track |
| Fuel Tank | 32.2L |
| Super Tooth® | 24 Total |
| Cutter Wheel | 51cm x 3.8cm |
| Cutting Depth | 35.6cm |
| Cutting Height | 62.2cm |
| Cutting Width | 152cm |

Features

- 44hp Kubota turbo diesel engine
- Radio remote controls
- Swing-out operator control station
- Can be operated from handheld remote control or from swing out panel
- Retractable undercarriage (127cm extended / 89cm retracted)
- Rubber tracks (non-marking rubber tracks optional)
- Hydraulic backfill blade
- Two-speed ground travel
- Low centre of gravity
- Slewing ring pivot design
