RM27

Want more out of your stump cutter? The new RM27 Multi-Tool Carrier is the solution for rental stores and contractors seeking a compact stump cutter with versatility to operate multiple attachments. This new operating platform can be used with a wide variety of landscape, environmental, and snow removal tools including stump cutters, power brooms, hydraulic trenchers, tillers, brush cutters, and more. The RM27 doesn't compromise on productivity. With hydraulic power output that rivals dedicated machines, the RM27 is equally as capable of removing stumps as it is cutting a trench, tilling planting beds, and mowing through overgrown brush.

The RM27 is self-propelled, with rubber tracks and 2-speed travel. It's powered by a reliable 26.5hp Kohler, fuel injected, petrol engine. The RM27 has been designed with easy to operate controls and a low maintenance hydraulic system. Service points are easily accessible and powered implements feature belt-less drive trains.

Features

- 2-Speed travel
- 7-Inch (17.8cm) wide rubber tracks
- Fuel-injected 26.5hp Kohler engine
- 13.8gpm Hydraulic flow to power attachment
- Hydraulic quick-couplers for attachment
- Optional non-marking rubber tracks

Attachment specifications

Stump Cutter

- 15.5-inch (39.4cm) cutter wheel
- 18 Rayco Super Tooth cutter tools
- Beltless cutter wheel drive
- Cuts 30" (76.2cm) W x 24" (61cm) D x 27" (68.6cm) H

Push Blade

- Constructed of 1/4-inch (0.64cm) steel
- Replaceable wear edge
- 47.75-Inch (121.3cm) width
- Articulation angle 25deg left and right

Bucket

- Constructed of 10ga steel
- 136kg load capacity
- 35-Inches (88.9cm) wide x 19-inches (48.3cm) deep
- Serrated cutting edge

Power Broom

- 43-inch (109.2cm) working width
- Articulation angle 16deg left and right
- Beltless hydraulic drive

Brush Cutter

- 44-inch (111.8cm) cutting width
- 2 swinging cutter blades
- Deck constructed of 10ga steel
- Beltless hydraulic drive
