MEET MICHAEL ROWE

SALES REP - CMC LIFTS & ANGRY ANT LOADERS

How did you begin working at GMS:

After a long term business relationship with Rayco Equipment selling them extended warranties for their machines, I wanted to become a part of the team, knowing they sold quality brands I thought it would be a great opportunity for me.

What's your position at GMS: CMC Spider Lift & Angry Ant Sales Specialist.

What's your favourite machine at the moment: CMC19 Spider Lift, it's a great size and represents good value for money.

What is your approach to business: That you only get out what you put in! Always persevere!

What are your hobbies and interests outside of work: Motorsport, Home brewing Beer, spending time with my family and friends

Do you have a nickname: Rowee

Who do you get told you look like: Hondo

Favourite movie of all time: Crocodile Dundee

Favourite food: Chicken Parmigiana

Any funny job related stories: I'm scared of heights but love working with the spider lifts!

Global insider

WINTER 2014

Hi and welcome to our new newsletter under the new name Global Machinery Sales. Rayco's range of Equipment will still be our number one item, having moved into new lines with our Angry Ant Mini Loaders and CMC Aerial Platforms we felt we needed a more generic name.

We will still be offering great sales and service and would love to do a demo with any of our new equipment for you. CMC are considered the most durable spider lift on the market, with some very special features for any tight access job you may be performing.

Angry Ant Loaders as you will see from prices in this edition offers any business or operator a great versatile low cost machine, and being winter and time to cut wood see the specials in this edition for the Timberwolf Log Splitters.

RAYCO 1220G

12" WOOD CHIPPER
SPECIAL PRICE
\$49,900

inc GST or
\$229 per week
to approved clients

When you want a lightweight, 12-inch brush chipper at an economical price, you don't have to sacrifice performance. The RC1220G is the solution. The RC1220G features a powerful feed system, using a planetary drive motor to power the feed wheel for years of dependable service with very little maintenance. To reduce trimming, the throat opening is 20" wide all the way through to the drum, eliminating neck-downs behind the feed wheel. The feed wheel itself is 20" in diameter, allowing it to climb over limbs and logs easier than competitors' smaller feed

wheels. Rayco's X-Charge discharge system packs chips tight and helps to prevent plugging. To reduce maintenance costs, traditional clutches are eliminated. The drum engagement comes via a reliable belt-tensioning PTO. Drive belts can be accessed easily, without tools to save maintenance time. The lighter weight of the RC1220G also makes it well suited for towing, reducing loads and using less fuel in the tow vehicle. The RC1220G offers performance and labor saving features in a package that can fit almost any budget.

Seeing if our new man on the job was scared of heights!

And it came out that door.

Con Expo Las Vegas 2014

We had the pleasure of being in Vegas in March and went to Con Expo and visited the Rayco stand, this is predominantly a big machine show and was great to see Rayco's new line of Forestry Mowers and their new Super Crawler Trucks. Opposite is a picture of the new C100R with rubber tracks, and a new Crawler Truck. If you ever have four days to kill and want an excuse to go to Vegas, Con Expo is great to look at a vast array of machinery.

ANGRY ANT LOADERS
Strong, compact and versatile
from \$29,990 including GST

Global Machinery Sales are excited to introduce Angry Ant Loaders to the Australian market. No longer do you have to pay high prices for similar European models.

With Kubota and Perkins diesel motors, fitted with Italian and European hydraulic components, these machines offer great value for money. The flexibility of various attachments, augers, trenchers, log grapples, pallet forks, pot grabber and Leveller,

it's perfect as the all round versatile machine. With great finance packages available to approved customers, our 620 model could be yours From \$139.00 per week & the 840 model from \$185.00 per week.

Both models come with a three year warranty, mention the Global Insider and we will throw in a **free 4 in 1 bucket**. Call us now on 1300 072 926 for more information.

RG35 & RG27 The best little stump cutters in town

Rayco's next generation Super Jr is here! The new RG27 (27hp) and RG35 (35hp) Super Jr stump cutters bring revolutionary design changes to the ever popular Super Jr.

These machines are designed to give wider cutting dimensions, lower centre of gravity, more traction and floatation, and better visibility while cutting.

Their slewing ring pivot design eliminates the maintenance associated with pin style pivots and allows the machine to achieve maximum cutting depth across the entire width of the cut. A swing-out control station provides

visibility while cutting and swings in-line for travel through gates. The 35hp model RG35 also features two speed ground travel and a hydraulic backfill blade. Optional dual wheels provide a wider stance for operation on slopes.
