RG74T-R DIESEL

When it comes to engines, there's just no replacement for displacement. The new Rayco RG74T-R, is a high-production stump cutter powered by a massive 3.8L Cummins 74hp diesel engine that generates peak torque of 295ft-lbs. The large displacement diesel engine delivers more cutting power than most 100hp-class stump grinders and meets Tier 4 Final emissions without complex after-treatment systems. Compared to the competition, the difference is clear.
