RG35 TRAC

The RG35 Trac is an excellent stump cutter for those who need a compact machine that has traction to get where tyres just won't take you. The rubber track undercarriage provides excellent traction while maintaining a low ground pressure. Unlike other track stump cutters, the RG35 Trac's short track base allows it to turn easily and with less turf damage than competitors long track bases. Counter rotating tracks allow the machine to turn in place, which makes it easy to re-position when cutting large stumps. A swing-out control station provides excellent visibility while cutting and swings in line for travel through gates. Two-speed travel and a hydraulic backfill blade rounds out the package makes the RG35 Trac an excellent choice among compact stump cutters. For more information or to speak with one of our friendly salesguys, feel free to contact us via phone or email.

Specifications RG35 Trac Petrol

Weight	839 kg
Length	279.4 cm
